Request for Proof Reading Allowable Patent before Publication

I request in proof reading the allowable patent before publication. The reason for my request is based from past experience in my two prior patents No. 5,903,393 and No. 6,141,136. In both of these patents I applied for a Certificate of Correction. All technical journals submit proofs to authors before publication in order to minimize errors in text. A similar policy by the Patent Office should minimize Certificates of Correction. I am especially concerned with my current allowable patent because of numerous equations in the text which I have found to be prone to printing errors in my prior patents.

Very respectfully,

Ralph Kalibjian
